OH 102

A dwarf hybrid Okra variety with shorter internodal length. The variety is suited to the open field and cultivated for the fresh market. OH 102 F1 produces pods with an attractive dark green colour, excellent quality and long shelf life. It exhibits high yield and high intermediate field resistance against YVMV as well as OLCV. OH 102 is also known to have drought tolerance.

Technical data

• Ecology	Open field
• Variety Usage	Fresh
• Earliness	Early
• Pod length	10-13 CM
• Plant vigour	High
• Resistance	HR: Yellow Vein Mosaic Virus (YVMV); Okra Leaf Curl Virus (OLCV)
